The Board further affirms its responsibility to embed risk management in all aspects of the Group’s activities and for reviewing the adequacy and integrity of these systems in mitigating risks within the Group’s acceptable risk appetite. Nonetheless, the Board recognizes that the systems of risk management and internal control are designed to manage rather than to eliminate risks of failure to achieve its business objectives. Therefore these systems of risk management and internal control in the Group can only provide reasonable but not absolute assurance against misstatements, frauds or other consequences.
